## Objective

AI-focused Computer Science fresher with hands-on experience in deep learning, Android application development, and cloud deployments. Published IEEE researcher with 2 peer-reviewed papers on neural and hybrid AI systems. Open-source contributor at Wikimedia Foundation. Seeking a Software / AI-ML Engineer role to build scalable, intelligent systems at a forward-thinking technology company.

## Education

**Alva's Institute of Engineering and Technology** Moodbidri, Karnataka  
Bachelor of Engineering, Computer Science and Engineering — CGPA: 8.7 / 10 Nov 2022 – May 2026

## Technical Skills

**Languages:** Python, Java, TypeScript, C  
**AI / ML & Data:** TensorFlow, Keras, Scikit-learn, OpenCV, Pandas, NumPy, Matplotlib, CNN, RNN, LSTM  
**Mobile & Web:** React Native, Expo, React, TypeScript, HTML/CSS, REST APIs  
**Databases & Backend:** Firebase, Supabase, MySQL, MongoDB  
**Cloud & DevOps:** GCP (Compute Engine, IAM, Cloud Functions, Kubernetes), CI/CD Pipelines  
**Developer Tools:** Git, GitHub, Gerrit, Phabricator, VS Code, Linux/Ubuntu

## Experience

**Wikimedia Foundation** Remote  
Open-Source Software Contributor Sep 2024 – Feb 2025

- Contributed feature enhancements to the **Campaign Events** module in a large-scale PHP/MediaWiki codebase, collaborating asynchronously with a globally distributed open-source engineering team.
- Used **Gerrit** for end-to-end code review — triaging issues, writing patches, addressing reviewer feedback, and verifying quality gates before merging into the production branch.
- Coordinated tasks and bug tracking via **Phabricator**; awarded **Certificate of Appreciation** (WikiClub Tech) for high-quality contributions to a platform serving hundreds of millions of users.

**Google Cloud Boost Arcade** Remote  
Cloud Engineering Learner Oct 2024 – Present

- Completed **40+ hands-on labs** across Compute Engine, IAM, Cloud Functions, and Kubernetes — gaining practical GCP deployment, container orchestration, and CI/CD pipeline skills.

## Projects

**Deepfake Detection System** | Python, TensorFlow, Keras, OpenCV, CNN-RNN Aug 2025 – Jan 2026

- Designed and trained a **CNN-RNN hybrid model** for AI-manipulated video detection using spatial (CNN) and temporal (RNN) feature extraction across video frame sequences.
- Processed **10,000+ video frames** through a custom preprocessing pipeline; achieved **91% detection accuracy** via systematic hyperparameter tuning and cross-validation.
- Published findings as an **IEEE conference paper** — “Neural Threats: Deepfake Detection System” — demonstrating research depth and contribution to the AI safety domain.

**Sahyadri-Samrakshane** | React Native, TypeScript, Expo, Supabase Jan 2026 – Apr 2026

- Developed a production-oriented environmental protection and disaster reporting mobile application for the Western Ghats region.
- Built the cross-platform mobile application using **React Native**, **Expo**, and **TypeScript** with responsive and modern UI design.
- Integrated **Supabase** backend services for authentication, cloud synchronization, and real-time ecological alert management.
- Implemented GPS-based reporting workflows for forest fires, landslides, wildlife sightings, and illegal tree-cutting incidents with offline-first functionality.

**Makeover Website** | React, TypeScript | sumas-makeover.netlify.app Mar 2025 – May 2025

- Built and deployed a production-ready, **mobile-first React + TypeScript** web app with optimised performance, component-based architecture, and responsive UI currently serving real end users.

## Achievements & Certifications

- IEEE Conference Publications (×2):** “Neural Threats: Deepfake Detection System” and “Structured Intelligence: Merging Neural and Symbolic AI” — peer-reviewed research in deep learning and hybrid AI systems.
- Wikimedia Foundation** — **Certificate of Appreciation:** Recognised under the WikiClub Tech program for meaningful, sustained open-source contributions to a globally-used platform.
- Technova 2023** — **1st Place:** Led the winning team at the Algoriz Club inter-college competition at AIET, demonstrating leadership and problem-solving under pressure.
- TCS TechBytes** — **7th Place (Regional):** Secured top-10 finish in a regional technology quiz conducted by Tata Consultancy Services.
